

What we do at Launch

Train you with proven scripts on how to present to sales agents

Provide you with a data set of all sales agents within your marketing territory

Run a cold email campaign that targets all the sales agents within your marketing territory.

The launch marketing budget is allocated to running targeted marketing campaigns directly to the sales agents

Offer reduced cost inspections (which appear free to the sales agents and vendors)

A dedicated member of our team will contact agents on your behalf, working with you until you secure 15 trial inspections.
